DETAILED ACTION

Response to Amendment

1. In view of the amendments and arguments in the response of July 11, 2003, the Section 112 rejections and the prior art rejection over the WO patent of record have been overcome. The remaining rejections of record are maintained below.

Election/Restrictions

2. Claims 18-24, drawn to processes of making, remain withdrawn as being to nonelected inventions for the reasons of record. Applicants have limited claims 1-17 to elected subject matter (compounds, compositions and methods of use where R₃ and R₄ do not form a fused ring with the pyrazine ring). Process of making claims, limited to the scope of the elected product claims, will be rejoined therewith.

Obviousness-type Double Patenting

3. Claims 1-17 are again rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over the claims of U.S. Patent No. 6,465,467 for the reasons of record. Applicants have indicated under their Remarks that upon disposition of all other rejections a terminal disclaimer will be filed to overcome this rejection.

Claim Rejections - 35 USC § 103

4. Claims 1-17 are again rejected under 35 U.S.C. 103(a) as being obvious over the Nilsson et al. U.S. patent No. 6,465,467, above, for the reasons of record.

5. The applied reference has a common inventor and assignee with the instant application. Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art only under 35 U.S.C. 102(e). This rejection under 35 U.S.C. 103(a) might be overcome by: (1) a showing under 37 CFR 1.132 that any invention disclosed but not claimed in the reference was derived from the inventor of this application and is thus not an invention "by another"; (2) a showing of a date of invention for the claimed subject matter of the application which corresponds to subject matter disclosed but not claimed in the reference, prior to the effective U.S. filing date of the reference under 37 CFR 1.131; or (3) an oath or declaration under 37 CFR 1.130 stating that the application and reference are currently owned by the same party and that the inventor named in the application is the prior inventor under 35 U.S.C. 104, together with a terminal disclaimer in accordance with 37 CFR 1.321(c). For applications filed on or after November 29, 1999, this rejection might also be overcome by showing that the subject matter of the reference and the claimed invention were, at the time the invention was made, owned by the same person or subject to an obligation of assignment to the same person. See MPEP § 706.02(l)(1) and § 706.02(l)(2).

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
